

*Life to the full...  
Unfolding the founding grace...  
Journeying together with realism and hope....*

## Day 13: The Wanderings

With the Province of St. Joseph in India, we began our day with a prayer:

- Where are we at this moment?
- Are we open to listen deeply to the invitation to be reborn, to restructure our lives, our missions and not to hold on to the past?
- Are we able to hear the cry of the poor, the abandoned...? Are we able to listen to the universe?

The Animator invited us to a time of personal prayer to try to listen to God's dream, God's call for the "Little Design" today. In the small group, each one shared the call that she had discerned in her personal prayer time and the small group agreed to write one call, a priority for the group.

Then the assembly returned to spiritual conversation to listen to the calls of the small groups. A drafting team of two people listened to the calls and wrote the appropriate text for the calls.

A new method of work was proposed by the coordination team: **Wandering**.

We follow the following steps:

1. The drafted texts are displayed in the room in the three languages: Community Life,
2. Internationality, Missions, Economy, Laity, Communication, Formation, Governance, Constitution, Appeals...
3. The Chapter members walk around the room, read the texts, write the remarks on the panel of each theme.
4. A group of 6 sisters (2 per language) then prepared 3 texts in the three languages, considering the written modifications

While waiting for the work of the drafting group, the other sisters will take advantage of these few hours to: pray, walk, rest... Thank you for the writers who accepted to do this in the name of all the delegates and for the whole Congregation.
